EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Richard Anderson on 27 May 2005.

The application has been amended as follows:

Claims 9-11 have been canceled without prejudice to the filing of a continuing application.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: The prior art of record, which is the most pertinent art found, fails to teach and/or fairly suggest. US 3,759,733 teaches the formation of various monoazo pigments comprising water-soluble azo dyestuffs having formulas similar to formula (1) instantly claimed however it fails to teach its combination with other yellow pigments. JP07-126546 teaches cement dispersants having formulas similar to formulas (2) and (3) instantly claimed however it fails to teach its combination with a compound of formula (1). No motivation can be seen for one of ordinary skill in the art to combine the various pigments recited in instant claim to form a yellow pigment composition. Also the prior art fails to teach and/or fairly suggest the process recited in instant claim 4. Accordingly the claims are allowable over the art of record.
